

STATE OF CALIFORNIA  
THE RESOURCES AGENCY  
STATE WATER RESOURCES CONTROL BOARD  
**DIVISION OF WATER RIGHTS**

**ORDER**

APPLICATION 11010

PERMIT 6565

LICENSE \_\_\_\_\_

**ORDER APPROVING A NEW DEVELOPMENT SCHEDULE  
AND AMENDING PERMIT**

**WHEREAS:**

1. A petition for extension of time within which to develop the project and apply the water to the proposed use has been filed with the State Water Resources Control Board.
2. It appears that the permittee has proceeded with diligence and that good cause has been shown for extension of time.

**NOW, THEREFORE, IT IS ORDERED THAT:**

1. A new development schedule is approved as follows:

APPLICATION OF THE WATER TO THE PROPOSED USE  
SHALL BE COMPLETED ON OR BEFORE

December 1, 1987

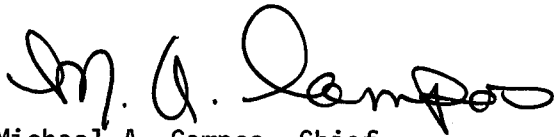

2. Paragraph 7 of the permit be amended to read as follows:

Pursuant to California Water Code Sections 100 and 275, all rights and privileges under this permit and under any license issued pursuant thereto, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the State Water Resources Control Board in accordance with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use, or unreasonable method of diversion of said water.

The continuing authority of the Board may be exercised by imposing specific requirements over and above those contained in this permit with a view to minimizing waste of water and to meeting the reasonable water requirements of permittee without unreasonable draft on the source. Permittee may be required to implement such programs as (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophytic growth; and

(6) to installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this permit and to determine accurately water use as against reasonable water requirements for the authorized project. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation.

Dated: JULY 13 1979

County: Santa Clara

ORDER GRANTING EXTENSIONS OF  
TIME, AMENDING PERMITS, AND DIRECTING  
ISSUANCE OF LICENSE

BY BOARD MEMBER DODSON:

The time to complete construction work and use of water under Permit 3010 expired on December 1, 1970. The time to complete construction work and use of water under Permit 6565 and use of water under Permit 14704 expired December 1, 1968. On April 9, 1973, the permittee filed petitions for a 3-year extension of time to complete construction work and/or beneficial use of water under the permits.

A public hearing was held before the State Water Resources Control Board on August 15, 1973, to determine whether extensions of time should be granted, or licenses should be issued for the amounts of water placed to beneficial use, or the permits revoked. Permittee Santa Clara Valley Water District (then known as Santa Clara County Flood Control and Water District) and the Sierra Club, an interested party, having appeared and presented evidence, the evidence having been duly considered, the Board finds as follows:
